SUMMARY

I am a passionate and driven Computer Science student at Northrise University with a GPA of 3.39. Alongside my technical skills in web development and networking, I excel at content creation, video editing, and graphic design. My experience working at Negocio Konnect as a web developer and content creator has enhanced my ability to collaborate effectively in team settings while delivering high-quality digital solutions. I possess strong leadership, communication, and problem-solving skills, and I thrive in dynamic environments where adaptability, creativity, and a growth mindset are essential. I am eager to continue broadening my expertise, particularly through international exchange opportunities, to further develop both personally and professionally.
